

## **Covid Protocol for Summer of 2022**

### **At Camp Arnes**

Dear Camp Arnes Guests, Parents/Guardians and Campers,

We at Camp Arnes will follow all Health regulations that Shared Health and the Manitoba Government puts forth.

All children going to Camp via the bus will have their temperature taken before they get on the bus. All children arriving at Camp with their parents will have their temperature taken upon arrival. If a child has a high temperature, they will not be allowed on the bus or to attend Camp.

If a child has symptoms while at Camp we will do a Rapid Test. If positive, we will isolate the child and call the parents to come get their child. If the test is negative, we will test for a total of four days, but the child will stay in their cabin group and participate in all Camp activities.

The Camp Nurse will do all the Rapid Tests and will consult with senior staff on what the next steps will be regarding the results of the test. If the test is negative but the child still has flu like symptoms the nurse and senior staff will assess as to how to manage the situation.

In all cases the parents will be notified if their child shows symptoms and that a Rapid test will be administered. Parents will be notified of the results.

Sincerely,

Camp Arnes Staff
